# REPUBLIC OF GAMERS

## For those who dare

Welcome to Republic of Gamers. It's a proving ground for the elite - a place where players and teams gather to celebrate camaraderie and gaming excellence. There's no room for mediocrity or weakness here.

This is a call for those who dare venture, defy convention, and rebel against conformity. You rise up to challenges, and are not afraid to stare failure in the face, time and time again. You stand by your instincts, as well as alongside comrades in need. Republic of Gamers is for those who dare seek the impossible because 'hard' isn't enough.

ROG is the Choice of Champions. If you dare, put on your game face and Join the Republic.

# THE LATEST 12<sup>TH</sup> GEN INTEL CORE i9 CPU

12<sup>th</sup> Gen Intel® Core™ processors introduce a new performance hybrid architecture, with a unique combination of Performance and Efficient-cores (P-core and E-core). Designed from the ground up to work seamlessly with Windows 11, Intel™ Thread Director makes sure the right workload is sent to the right core at the right time.

# THE LATEST 6000 SERIES AMD RYZEN CPU

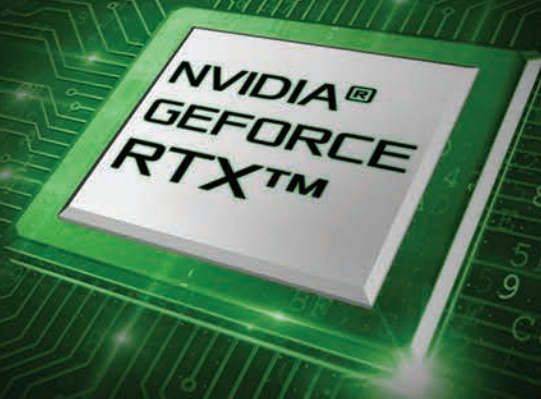

Leverage the power of Ryzen™ with up to the AMD Ryzen™ 9 6900HX CPU. This flagship processor has incredible single-threaded performance, critical for a smooth gaming experience. When you need to stream or record your gameplay, up to 8 cores and 16 threads can flex their multi-threaded muscle without breaking a sweat. No matter how you intend to play, the AMD Ryzen™ 9 6900HX CPU is there to support you.

Playtime. Anytime.

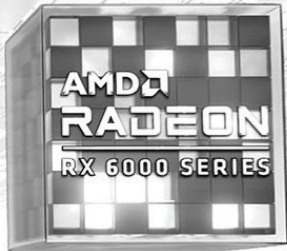

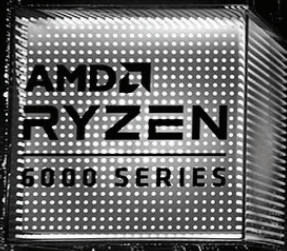

# THE LATEST RTX GEFORCE GRAPHICS

NVIDIA® GeForce RTX™ 30 Series Laptop GPUs power the world's fastest laptops for gamers and creators. They're built with Ampere-NVIDIA's 2nd gen RTX architecture-to give you the most realistic ray-traced graphics and cutting-edge AI features like NVIDIA DLSS.

# THE LATEST AMD RADEON GRAPHICS

The brand new 2022 ROG gaming series powered by AMD and Windows 11 out of the box. Featuring new Ryzen™ 6000 processors and Radeon™

AMD GPU	VRAM	Product Series
RX 6700S	8GB	Zephyrus G14

RX 6850M XT	12GB	ROG XG Mobile

Playtime. Anytime.

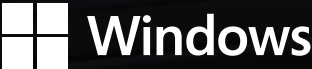

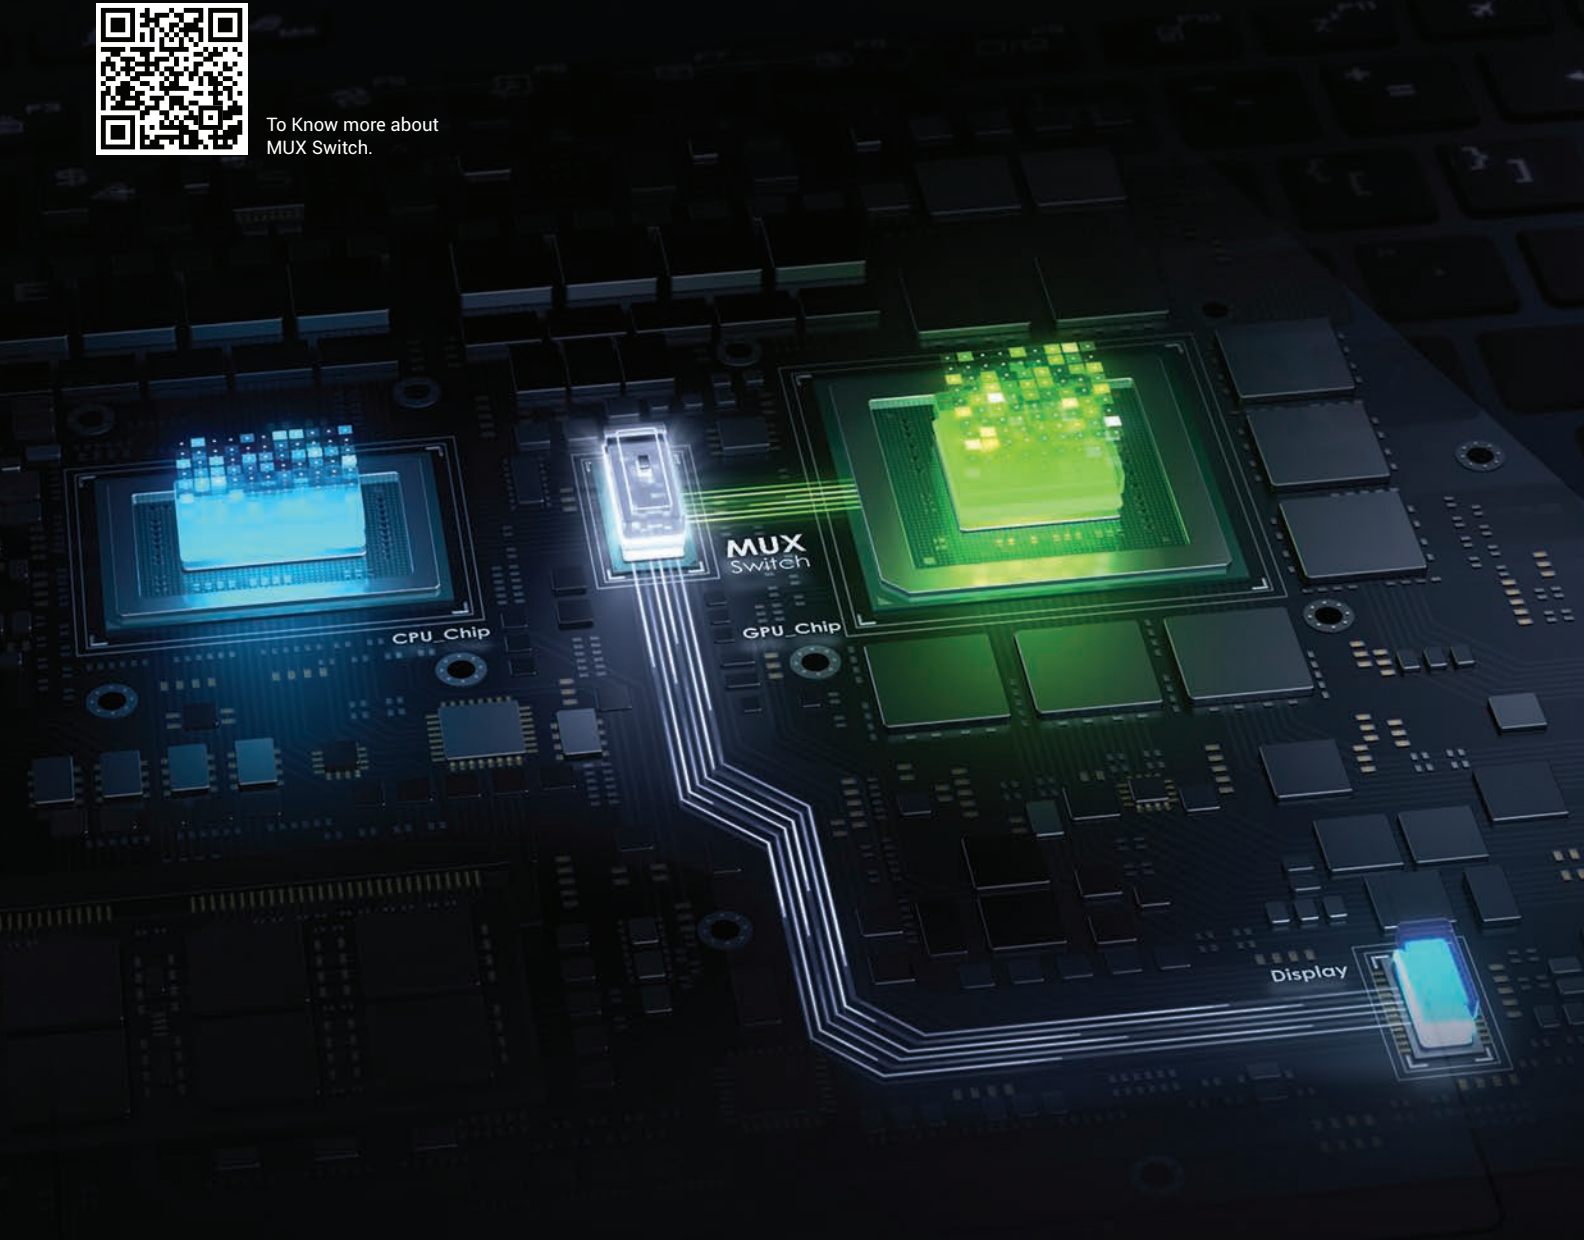

# MUX SWITCH

## Maximum Performance & Unrivalled Endurance

Most modern gaming laptops use powerful, dedicated graphics chips for high performance-but route those frames through the CPU's integrated graphics before reaching the display for maximum battery life. This prevents your GPU from giving its absolute best performance, which is why we're bringing a MUX Switch to all 2022 ROG laptops. For competitive games, you can enable a direct GPU mode that reduces latency and boosts performance by up to 5-10% on average.

To Know more about MUX Switch.

Playtime. Anytime.

# ROG NEBULA HDR

## FAST, BRIGHT, VIVID

The Nebula Display™ specification has raised the bar for ROG's display leadership. However, the Nebula HDR Display™ moves the standard even further. Requiring 1100 nits of peak brightness, VESA DisplayHDR certification, and 512 dimming zones, these panels provide incredible HDR performance. Despite this incredibly high peak, color vibrance is maintained across the brightness spectrum.

Mini LED  
Technology

1100Nit

## NEBULA HDR ENGINE

The Nebula HDR engine is a purpose built algorithm capable of reducing haloing by up to 25%. Trained on an instruction set of more than 150 videos and over 2000 still photos, the algorithm is able to dynamically adjust the HDR lighting needed to keep any haloing from the dimming zones to a minimum.

# ROG INTELLIGENT COOLING™

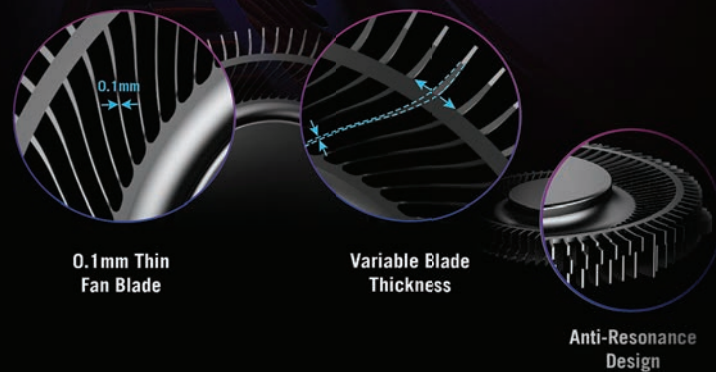

ROG uses a strategic mix of hardware and features to achieve ideal cooling for each combination of components and chassis, combined with smart software that optimizes your experience for work and play.

## UPGRADED ARC FLOW FANS™ MOVE MORE AIR WITH LESS NOISE

Updated Arc Flow Fans™ feature curved blades specially shaped to maximize airflow with minimal noise. Laptop fan blades are typically the same thickness throughout, but our new design can get as thin as 0.1mm at the base before expanding toward the tip. Varying the thickness reduces turbulence as the fan blades accelerate air with centrifugal force, giving you a quieter overall experience.

\* Airflow improvements compared to the 71-blade ROG fan design, as tested internally by ASUS.

## KEEP YOUR COOL WITH LIQUID METAL CONDUCTIONAUT EXTREME

Cooling is one of the greatest challenges facing gaming laptops, and ROG is constantly pushing the envelope. This drive led to liquid metals, which are extremely effective at transferring thermal energy between surfaces like a processor die and heatsink. Over a year of testing with various processors, ROG engineers observed reductions in temperatures up to 10 degrees Celsius with liquid metal, depending on the CPU. Lower temperatures help processors sustain higher clock speeds for longer and prevent fans from ramping up and making noise. And unlike typical pastes, liquid metal will also never dry out, improving long term stability.

New for 2022, select ROG models now feature Thermal Grizzly's cutting-edge Conductionaut Extreme, which improves liquid metal's heat transfer even further. Compared to traditional thermal pastes, this indium- and gallium-based compound offers 17X higher conductivity and CPU temperatures up to 15 degrees cooler. Used exclusively by ROG, this material offers the highest thermal transfer available on a laptop.

\*Temperature improvements compared to the previous gen thermal compound, as tested internally by ASUS. Thermal conductivity compared to industry standard.

Up to

## ROG FLOW X13

Compact is the New Impact

Powerful Windows 11 gaming has never been as flexible or portable as in the 2-in-1 2022 ROG Flow X13. Speed through gaming and beyond with up to the latest Ryzen™ 9 6900HS processor and GeForce RTX™ 3050 Ti GPU. The optional XG Mobile eGPU boosts graphics on demand with up to an NVIDIA GeForce RTX 3080 or AMD Radeon RX6850M XT. Perfect your play with a choice of 4K UHD or 120Hz FHD displays.

### Make Waves

Fast. Fluid. Flexible. Our first 13" gaming device embodies versatility, changing form freely on a slick 360° hinge. Textured lines across the chassis strengthen its structure and add grip for easy carrying. A low profile design slips easily into crowded bags, leaving more room for your favorite gaming gear.

### Faster, Freer, and More Flexible

The ROG XG Mobile reinvents external graphics by combining performance and versatility with true portability. Despite being 7% of the size of typical eGPUs, this device harnesses up to an AMD Radeon™ RX 6850M XT GPU. Our exclusive interface avoids common bottlenecks and adds dedicated bandwidth for an integrated I/O hub. The built-in adapter powers the eGPU and laptop so you can travel light.

\*The XG Mobile must be connected to a power outlet to operate.

AMD Radeon™ RX 6850M XT / Nvidia RTX 3080  
GPU

### Get Ready to Flip

The 360° hinge opens up flexibility to follow your flow. Lift the lid for work and play. Switch to stand mode to share your screen or tent mode for tight quarters, and get improved cooling that lowers processor temperatures by up to 8°C\*. Push the screen back to enjoy a touchscreen tablet with active stylus support for drawing and taking notes. Versatility like this makes the ROG Flow X13 a real revolution.

Playtime. Anytime.

ASUS ONSITE SERVICE AT YOUR DOORSTEP

Still trying to find the closest service center? Too busy to carry your Notebook to service center for Tech Support? Now ASUS provides an exclusive solution for you! Other than minimum 1 year International Warranty (*This Warranty applies in the country of purchase and may vary by different country based on service process, For more information please visit <https://www.asus.com/in/support/Article/1013/>*), ASUS also provides a premium Onsite Service for end users & dealers. The Service allows you to request for Onsite service by a simple call which will instantly get a specialist to Support the Notebook at your premises in order to save your time. In terms of support lead time, we can provide earliest of 1 day and latest of 4 days to assure the quality of our services.

5 SIMPLE STEPS

- Call on our Toll Free Number 1800-2090-365 to request an Onsite Service
- The Tech support team will provide online trouble shooting
- Our Toll Free Agent will give you the option of Carry-in/Onsite support based on the city list/kilometer area radius from the nearest service center.
- An engineer will visit your place and resolve the issue if onsite is available
- You have to sign the feedback form

INFORMATION FOR SUBMITTING ON SITE SERVICE REQUEST
